Complete Jury For  
Trial Of Schweitzer

(International News Service)  
DETROIT, Mich., July 27.—A jury of six men and six women today was selected to hear the first degree murder trial of William Schweitzer, dapper young hoodlum, and his three "party girl" lures for the slaying of Howard Carter Dickinson, prominent New York attorney.

Completion of the jury came only after Presiding Judge John A. Boyle had taken examination of prospective jurors from the hands of de-

fense and prosecuting lawyers because of four days of bickering in the jury selection.

Two alternate jurors also were selected in event of illness of any member of the jury.

Dickinson was slain in lonely Rouge park and robbed of \$134 as Karpis in this area, folded up today when an automobile in which America's public enemy No. One was reported speeding toward Buffalo was returned to its owner here.

WILL SUCCEED  
BARNES TO PLACE

(BULLETIN)  
(International News Service)  
HARRISBURG, July 27.—Governor George E. Earle today announced the appointment of Harry E. Kalodner, his secretary, as secretary of the department of revenue, succeeding H. Edgar Barnes who resigned.

The appointment is effective August 1.

The governor, in a statement issued here, declared:

"I have accepted Mr. Barnes' resignation with regret because of his ability and qualifications and I have appointed Mr. Kalodner because of his thorough knowledge of revenue problems."

Barnes resigned his revenue post to devote his entire time to his campaign for election to the state supreme court.

At the same time, it was revealed that Attorney General Charles J. Margiotti has reached a final decision that two supreme court justices must be elected this November to fill the vacancies left in the high tribunal by the retirement of chief Justice Robert S. Frazier and the death of Justice Alexander Simpson.

Elevation of Kalodner will fill the cabinet post resigned by H. Edgar Barnes effective next Wednesday.

Barnes, who resigned as secretary of revenue to become a candidate for the supreme court, has the endorsement of the Democratic state committee for the full 21 year term. He is also certain of early appointment, it was disclosed, to fill the vacancy created by the death of Justice Simpson and will continue as a member of the tribunal if elected in November.

Thomas E. Williams, assistant secretary to the governor, probably will be named acting secretary upon Kalodner's accession to the revenue post. The \$7,500 a year position of secretary to the governor, it was said, will not be filled until fall.

WIMBLEDON, Eng., July 27.—Once again, after eight pointless, futile years, America's Davis cup team learned that the alleged pot of gold at the end of the rainbow was filled with brass knuckles, as England came out to sweep the court of the first two singles of the challenge round.

First, Wilmer Allison, the Texan, was beaten back by W. H. "Bunny" Austin, courageous Englishman, 6-2, 2-6, 4-6, 6-3, 7-5, after Allison was within two points of the match in the final set.

Then Fred Perry, greatest of champions, swept young Don Budge of California, off the court, to win the second match in four sets.

Postpone Action  
On Gold Clause

Senate Democratic Leaders  
Agree To Delay Action  
On Gold Clause  
Resolution

(Copyright, 1935, by International News Service)  
WASHINGTON, July 27.—Senate Democratic leaders have decided to postpone until the next session of Congress any final action on the gold clause resolution requested by President Roosevelt.

Already passed by the House, the measure which would bar suits against the government on dollar valuation, now is tied up in the Senate finance committee. It is unlikely that it will come out of committee at this session. If it should be reported the Senate chiefs have decided that it will not be taken up on the floor.

The decision was reached because of the highly controversial nature of the resolution. When hearings were held on it in committee, two former secretaries of the treasury, Senator Carter Glass (D) of Virginia, and Senator McAdoo (D) of California, assailed it as unfair and a breach of government faith.

Start Rebuilding  
Power Plant At  
Vance Coal Mine

Work on the rebuilding of the power plant of the Vance Coal mine, destroyed Friday by fire, near Wampum, started with a rush today. The charred ruins of the old power plant are being removed and the work of installing a new plant will go forward as rapidly as possible, it was said today.

A fine spirit of loyalty and co-operation was demonstrated by the miners and other employees of the company after the fire. The men volunteered to clear away the debris and work on the rebuilding without compensation. Realizing that the loss to the company would be nearly total they wanted to do as much as they could to alleviate the loss.

New Mystery Figure Enters  
Into Westwood Slaying  
At McKees Rocks

(International News Service)  
PITTSBURGH, July 27.—A new mystery figure entered the Westwood murder case today, two weeks after Martha Westwood, comely wife of Justice of the Peace James J. Westwood was laid in her grave.

Thomas Borden, 45, an electrician who knew Westwood, revealed that five days before she was slain in her bedroom, Mrs. Westwood, pale and trembling with fright, told him of a mysterious stranger who called on her and asked to see her husband.

When she spoke of the visitor, according to Borden, Mrs. Westwood said:

"I'm awfully scared."

Mysterious Stranger  
At the time Borden said he was working in the old Westwood home from which the family had moved last winter after the building was wrecked by a mysterious explosion. They moved to a second floor apartment a few doors away.

Borden linked the mysterious stranger to a man who had interrupted his work in the old Westwood home earlier the same day. After muttering in broken English, the man left.

Six detectives were still at work in the "bottoms" district where the slaying occurred, hoping to turn up a clue.

Registration Days  
Still Up In Air

It had not been definitely settled at the county commissioners' office this morning whether or not it would be necessary to change the registration days. The delay has been caused by changes made by the state department in the registration blanks to be used. The commissioners believe that by Monday they will know if it will be possible to get the blanks printed in time for the first day's registration.

State Will Seek To  
Read Confession To  
Thompson Case Jury

(International News Service)  
PEORIA, Ill., July 27.—"She bit my thumb so I hit her." That blow, the state charges, broke pretty 19-year-old Mildred Hallmark's neck, and for striking it Gerald Thompson, 26-year-old machinist, is on trial for murder.

The admission is from the 2500 word document which the state contends is Thompson's confession.

The prosecution today will begin its battle to introduce the sordid four-page document as evidence. In the confession, state attorney Edwin V. Champion said Thompson

relates how he lured the pretty brunette into his automobile, instead of taking her home to her father, mother and sister as he promised, drove her to a country cemetery, knocked her unconscious, ravished her, and left her in the lonely graveyard to die.

Defense attorney Ren Thurman, appointed by the court to defend the young man who he himself terms "a monomaniac, morally insane," is expected to bitterly resist introduction of the confession as evidence.

United States Will  
Not Participate In  
Coming League Session

(International News Service)  
WASHINGTON, July 27.—Maintenance of an adequate national defense and avoidance of European political entanglements today stood out as President Roosevelt's two cardinal points in the administration's program for keeping this country out of the next war.

A third point was adherence to the good neighbor policy in order to keep this country on friendly terms with all nations.

This three-point program of American neutrality was outlined by the president at his press conference in response to questions as to what the administration was doing to keep the United States out of the next war.

The president let it be known he expected the state department to see to it that the United States did not become involved in specific cases which did not concern this country. He said it was up to the diplomatic agencies of the government to do so.

Coal Strike Threat

General Strike Is Averted  
Through Intervention Of  
President Roosevelt

(International News Service)  
WASHINGTON, July 27.—A threatened general strike in the nation's soft coal industry today was averted once again by the personal intervention of President Roosevelt.

In response to a direct appeal from the president, the United Mine Workers and Appalachian producers agreed to extend the present wage scale to September 16.

The existing agreement between the operators and union workers was due to expire August 1. A deadlock in the efforts of the Appalachian joint wage conference to write a new wage and hour contract agreement threatened to result in a general strike five days hence.

Mussolini Throws Responsibility For Attendance

(BULLETIN)

(International News Service)  
GENEVA, July 27.—The League of Nations council today was summoned to meet Wednesday, July 31, to consider the Italo-Ethiopian dispute.

Peace Hopes Decline

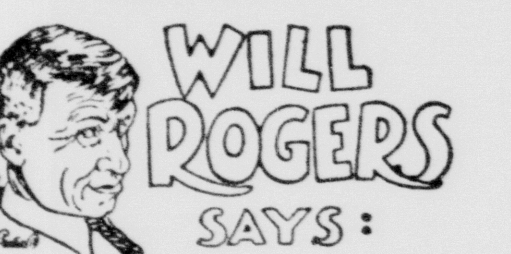

London, July 27.—Hopes of achieving an Italo-Abyssinian compromise at Geneva decreased with alarming suddenness today with Premier Mussolini's announcement he will participate only if discussions are limited to conciliation.

His note to the League of Nations, throwing entire responsibility for Italian attendance upon Ethiopia, demanding a pledge that "unrelated" topics will not be brought into the agenda, came as a surprise. Overnight dispatches had indicated Italy would attend without reservations.

Plans for the council meeting went forward as scheduled, but Britain is placing more faith in discussions proceeding in Rome. There is some feeling a basis might be found for a tri-partite parley to reach an adjustment of the dispute outside of Geneva.

Seeks To Avert War

The British feel the league meeting cannot be postponed indefinitely while efforts are made to find some other basis for agreement. But their sole object is to find some means of averting war. All other problems are regarded secondary. Meanwhile, the foreign office reiterated no decision had been reached to increase the British delegation (Continued On Page Two)

PA NEW  
OBSERVES

City workmen, Friday, were engaged in hauling away an unusual amount of sand and stones which were washed from the top of East Long avenue to the bottom of the hill, during Thursday's storm.

Almost every morning, one can see an elderly lady, fishing from the west bank of the Neshannock, along Neshannock avenue. She catches them too, it is said.

Pa Newscasts that work has practically been completed on the raising of a home which stood along Croton avenue, on the hillside, just above the Pennsylvania R. R. crossing. The home had been unoccupied for some time, although it seemed to have been a fairly good house.

Statement of City Engineer Throop that faulty paint is responsible for the condition of many of the new street signs and that they will be repainted, is welcome news. The condition of some of the signs is anything but a credit to the city, as they have only been in place for a few weeks.

New Castle council has taken steps to inaugurate a large scale WPA program here. It is too bad that the system at Washington has been so muddled up that this work could not have been started early in the summer. New Castle was ready with its program, but delay at Washington prevented any move to get the work under way. It will probably be some time now before approval of the projects is secured, and the work will probably not be completed until bad weather sets in this fall.

The occupants of a tourist car passing through New Castle were seen taking snapshots of all of the points of interest in the city as they (Continued On Page Two)

Mrs. K. W. Reimold entertained in her home on Highland avenue Friday evening at a party of charming appointments for two honor guests, Mrs. Ray Gagnon and Mrs. Frederick Barth (the former Russell girls), both of Santa Monica, Cal., who are visiting relatives in the city.

Three tables were used for the bridge contests, the high score award being captured by Mrs. James Stone, while the guests of honor were both presented with lovely hostess gifts.

Flowers were used throughout the house in decorations, and on the tables there were novel flower pots as favors. Appointments were in pastel colors, and in serving the dainty menu, Mrs. Reimold had the assistance of Mrs. Harry M. Long and Miss Gertrude Davies.

## Income Tax Boost May Start At \$50,000

Democrats In Committee Plan Change In Tax On Incomes

(International News Service) WASHINGTON, July 27.—House ways and means committee Democrats today decided to start boosts in individual income tax rates at incomes of \$50,000.

The change of attitude apparently resulted from criticism which greeted earlier announcements of tentative provisions of the new tax bill, which would provide funds to run the government only about ten days.

The earlier decision of the committee was to begin the hike in income taxes at \$150,000, with a maximum rate of 75 per cent on the biggest incomes. The estimate yield was only \$20,400,000.

By dipping down to incomes of \$50,000 and over, committee members said an additional \$30,000,000 in revenue will be obtained. This would bring the estimated yield of the bill to \$275,000,000 a year.

### LOOK AT THE LABELS

A MAN residing in an Eastern city recently wrote to a newspaper friend calling attention to the results of a downtown shopping trip which he and his wife had just made. On arriving home and examining some of the packages he says that he was surprised to find tags and labels which indicated:

1. A table cloth purchased was made in Czechoslovakia.
2. A dozen linen handkerchiefs bought were made in Ireland.
3. A bundle of safety matches were made in Japan.
4. A box of electric light bulbs were made in Japan.

This, he thought, was a rather surprising record for one day's shopping and to prove his case he mailed the labels to his friend. The labels and tags would indeed seem strange to one who has been swallowing the free trade guff about our tariff wall being so high nothing from abroad can get into us, and the statement that in order to sell more abroad we must buy more abroad.

The fact is, of course, that our imports have been steadily gaining for months and when the money sent to Europe by aliens living in America, and by American tourists going abroad, is taken into consideration, it is evident that the trade balance is already very much against us.

It is true that textiles and other manufactured commodities are coming to us from abroad—even American flags made in Japan. And it is equally true that since our farmers were paid by the AAA to cut down production, we have been importing more and more agricultural produce from abroad.

And still our state department is going merrily ahead to make trade agreements which will permit the entry of still more foreign goods in the hope that we will sell more abroad.

Foreign production is so much cheaper than ours that even our present tariff wall is ineffective. What we need is a higher wall not more leaks in the dike which is already proving impotent when it comes to protecting us from a flood of products of coolie labor in Asia and, to say nothing of the modern low cost industrial machine in Central and Western Europe.

### LONG SESSION'S DANGER

This business of keeping congress in session to enact legislation conceived at the last moment is not without its perils. President Roosevelt—and along with him the rest of the country—may find that out to his sorrow. Already there is talk of reviving the Patman bonus bill, which contemplates the payment of \$120,000,000 to veterans by greenback fiat money, and the Frazier-Lemke farm mortgage bill with its \$3,000,000,000 real estate bond issue.

Standing alone, these measures probably would be beaten seriatim. Put on the wealth-taxing bill, to pass which congress is expected to be kept in Washington all summer, they might become a menace. The senate is expected to be the scene of these attempted maneuvers, as the house, under the administration forcing process, probably will pass the tax bill in substantially the form the president desires.

The tax bill alone might have hard sledding in the senate. The complexities caused by amending it to include the bonus and farm mortgage bills would make the issue in doubt. Some senators, otherwise opposed, might vote for the tax plan with the amendments; others, now for the tax plan, might oppose it in duce if the amendments failed. The bill plus the amendments would embark the nation on such an orgy of inflation that Mr. Roosevelt might hesitate to sign it, despite his desire to deflate the Huey Long share-the-wealth movement.

Even Mr. Borah, who is heart and soul for the taxing bill, sees the prospect of its being loaded down with extraneous projects and contemplates a session lasting until November 1. Such a prediction must be taken with a grain of salt, but the dangers of keeping congress in session indefinitely are not to be underestimated.

### DIVIDING THE WEALTH

In the arguments supporting redistribution of wealth, one of the favorite statements of the would-be divisors is one showing that a ridiculously small number of people own nearly all the wealth of the United States. A common statement is that two or three per cent of the people own about three-fourths of the wealth of the nation. This is entirely misleading. One has only to remember that in arriving at this percentage, no account is taken of the number of infants, school children, and wives and mothers of the nation who are not wage earners, and perhaps never have been. These are always counted in the number who do not "own any of the wealth."

But aside from this Dr. Nicholas Murray Butler is quoted in summary in the Eastern Underwriter recently as stating among other things that "there are 15,000,000 owners of corporate securities in the United States. Savings banks had deposits in 1932 of twenty-five billions of dollars, and these belonged to 45,000,000 persons. Members of building and loan associations number 10,000,000 persons, and assets of such associations are eight billions of dollars. In force are more than 115,000,000 policies of life insurance for a total of about a hundred billions. Half of the families in the United States—14,000,000—own homes although many, of course, have mortgages on them. At the time of the last federal census two out of every three families in the U. S. had telephones; and 40 per cent of them owned radios."

Here is a record of wealth distribution that has never been equalled in the world's history.

As a matter of fact, there can be no such thing as "evening up" in the United States and keeping even. Until there is a redistribution of intelligence, of character, of industry, perseverance and self denial in the United States there can be no just and lasting redistribution of wealth.

It is not to be denied that some "luck" may enter into the matter. Some people seem to have more illness and more misfortune than others, but this is something which no human agency can prevent, though it can help alleviate distress.

The fact is that so long as some men prefer night clubs to midnight oil, revelry to reverence, wasting to working, extravagance to economy, and so long as some are endowed with less intelligence than others, there will be no redistribution of wealth that will "work." If the wealth of the nation could be redistributed, in an equitable way, it wouldn't be many years until some people would own a lot more than others.

But the truth is that there can be no redistribution of wealth, equitably or otherwise. Long before the job is completed the government would own everything.

The young lady saw Maxie perform in the Braddock bout and then married him, so it must have been love.

### ASK HIM AND SEE

I know a man who will really agree with you that life is a very tricky business and a man must watch his step, his temper and his words if he is to keep himself out of trouble and embarrassment. (He didn't tell me this story about himself. His wife did, while he sat silently by and nodded his head and smiled ruefully.)

You see, this friend of mine had just moved into a strange town and he wanted, as anybody would, to make a good impression on his new neighbors.

But he had a nice dog who wouldn't stay home . . . and that wandered over into the next-door neighbor's garden and sat on the precious flowers. . . Also this friendly puppy had the bad habit of nipping butcher boys, grocer boys and milkmen the first time he saw them.

The other morning, very early, the dog took after a milkman in front of the house and when his master emerged from the house he saw the milkman kicking at the dog and the dog snapping at the kicker. . . All three strangers, my friend, his dog, and the milkman. . . So the dogman said to the milkman: "Don't kick him, make friends with him. He'll be all right. . . But the milkman said he didn't have time to make friends with every stray mutt on his route—and that made my friend most righteously angry.

All right, said he, don't leave any more milk. Stop our order right away and don't come around here any more. . . And he wasn't a bit ashamed of himself.

But two days later he discovered that while he was still getting milk, his next-door neighbors weren't. It was his dog, but not his milkman, and he'd stopped the neighbor's milk.

So that man is willing to agree that climbing a greased pole is easy compared with getting through life without occasionally making a big idiot of yourself.

### YOUTH SHOULD MAKE ALLOWANCES FOR AGE

There is not enough sympathy, kindness and consideration shown for those who have passed the days of their greatest mental and physical activity.

No matter what such persons have done as proof of their once great ability, those of younger years very often show signs of annoyance when they come in contact with these older people.

The opinion is not hidden that these younger people think the older ones should retire from the line of activity into which youth is pushing its way.

Undoubtedly, these older persons would gladly retire and relieve themselves from the demands of the jobs they hold if they possessed money enough to assure them a living.

But there is the constant fear that they may lose the position they now hold and become public charges or dependent upon relatives.

They have the pride which comes with an active life, and this prompts them to keep on supporting themselves as long as they possibly can.

It is not easy for an older person to keep going.

The old machine has developed weaknesses.

These are manifested in many ways; it necessitates the exercise of strong will-power to meet the demands of a work-a-day job.

There should be enough heart and sympathy in young folk to be helpful.

### RESTLESSNESS

The urge to grow; the urge to climb, I count the greatest gift of time.

This is the dream that leads us on: Always to better what is gone;

To build, to fashion and invent Peace at the forge of discontent;

Always to look at life and see Glimpses of better days to be;

Ever to walk with restless feet A world that never is complete.

What good were Time should dawn the sun

Upon a day when dreams were done,

When every venture had been tried And all mankind were satisfied?

Then we should merely live and brown

As dumb and placid as are cows. (Copyright, 1935, Edgar A. Guest)

Unnatural Economics Seen.  
Costs Raised Against Competition.  
Can Farmers Get Higher Prices?

Central Press  
New York Bureau  
235 East 45th street  
By LESLIE EICHEL  
Central Press Staff Writer

NEW YORK, July 27.—Two opposing forces are at work that are likely to bring on more strikes—in the opinion of Wall Street.

One force is the endeavor to raise the prices of agricultural products still higher. Senator Robert M. La Follette of Wisconsin put through a rider to the AAA bill which gives the president the power to impose quota restrictions on agricultural products so that agricultural imports can be shut out. That means higher food prices, higher clothing prices.

The other force is competition and supply and demand. Manufacturers, in an endeavor to meet world prices, governed largely by supply and demand, must cut prices. They cannot cut commodities. They, therefore, take it out on labor—not in reduced wages, but in quantity production. Machines displace men, and those men who remain work speedier.

Organized labor naturally tries to "freeze" the present by means of Union recognition and contracts stabilizing present wage and working conditions, with an upward tendency.

Workers, genuinely frightened, say unless there is concerted action now, standards of living may sink to low levels, and the jobless will increase. The day of the craft union seems to be ending. Only when unions act as a group (the unions believe) can they gain recognition—especially in the monopolistic industries.

Thus strikes of larger and larger groups are threatened, unless some means of peaceful solution can be found.

### THESE ACTIONS FEARED

The federal government believes it could keep labor peace if there were not two fomenting influences (in addition to the economic readjustments):

1. The importance of armed guards and strikebreakers (which was the immediate result of the general strike in Terre Haute, Ind.).
2. The issuance of injunctions against labor by state and county judges (cause of a threat of a general strike in Cleveland).

**FOOD TARIFFS**  
Unquestionably, farmers have had a difficult time making a living ever since the World War. But the question now arises, can farmers afford to try to get higher prices?

Senator Millard E. Tydings, of Maryland, in opposing the La Follette agricultural quota amendment, made this argument:

"If you show me a year when we exported the most goods, I do not care what year it was, I will show a year when we imported the most goods."

"This country exports more than it imports. Let us suppose we stopped all trade; who would be the

### NOT EUROPE—ASIA

The oldest printing blocks in existence are on exhibit in a collection of bamboo, root and wood carvings from China, at Chicago's Field Museum of Natural History.

The blocks are engraved with floral designs, and must have been made before the year 1100 A. D. They were found in the ancient city of Chu-lu, in the southern part of the province of Chi-li. This city, excavated by archaeologists in recent years, was submerged by a flood in 1108.

The Chinese were the inventors of block printing, and, in fact, of all the essentials for printing—paper, writing brush, ink and ink pallet or ink stone. They invented and perfected these entirely from their own resources, unaided by any other nation. Paper was invented and manufactured in China as early as 105 A. D.

## STEEN NOTIFIES WASHINGTON OF FLOOR BUCKLING

Heat Spell Affects Floor In Post Office Room; He Asks Attention

A streak of faulty floor construction which has appeared within the past few weeks in the office of Superintendent of Mails, David B. Thomas at the new post office, led Postmaster Richard A. Steen today to call to the attention of proper construction officers of the United States Treasury department.

The parquet block floor, used throughout the building, has buckled somewhat in Thomas' office as a result of the warm temperatures. The buckling has made no other appearance in other sections.

"It was getting worse," said Postmaster Steen. "I asked the department to take action."

Steen pointed out that in other parts of the building the floor was partitioned at various points with inner-laid cork, which counteracts the expansion and contraction of the floor. He believes the cork strip would solve the problem in the room affected.

Postmaster Steen announced that the building, erected by A. W. Kutsche & company, Detroit general contractors, was "in good shape" in other places. Little trouble has been brought to his attention since it was opened in December of 1934.

Steen also announced today that he has called for bids for the painting of the exterior of the postal workroom "dumb waiter" which was installed after the building was opened. The shaft was never painted.

# Cascade Street Is Badly Washed

Heavy Rains Do Considerable Damage To Road During Past Week

## DITCHES FOUND HIGHER THAN ROAD

Heavy rains this week did considerable damage to the recently completed Cascade street road. It has been noted by those who have had occasion to drive over the road during the past few days. In many places, the center of the road is much lower than the ditches on either side, and the water thus runs down the road. Whenever a heavy rain falls, the limestone top is washed away. On the section of the highway between The Lehigh Portland Cement plant and Cascade Park, almost all of the limestone has been washed off, leaving only the heavy stone base on which to drive, and the road has become very rough. Those who have occasion to use the road believe that the road should be given a treatment of oil to keep the limestone top bound together. The road is said to have cost over a hundred thousand dollars to build, the labor having been furnished as a PWA project, while the materials and tools were furnished by the city.

## Comb Scranton For Bank Gang

lieved Used By Bank  
Bandits At Old  
Forge Found

(International News Service)  
SCRANTON, Pa., July 27.—Finding of a second automobile believed used by five bandits who held up the Old Forge Discount and Deposit bank and escaped with \$16,000, today centered search for the desperadoes here.

State, county and city officers combed Scranton and its environs in the belief the quintet may have found shelter in some underworld hideout. The second car, taken by force from Harry Agard, Scranton, was located on a street in South Scranton.

In Agard's car police found two machine gun magazines of .38 calibre steel jacketed bullets, a flour sack which evidently had been used as a container for the loot, and the coat of a chauffeur's uniform which police said was worn by the bandit driver.

Meanwhile, bank employees revealed that the bandits overlooked \$19,000 kept in a small safe, when they swept into the bank at Old Forge, near here and terrorized T. J. Stewart, the bank's president, and bank tellers ten minutes after the institution's opening.

## Tight Wire Artist Does Elfish Tricks

He's Ray Goody, somersault king of the high wire. He also offers a sensational slide for life with Gorman Brothers Circus here on Tuesday, July 30.

Ray Goody, somersault king of the high wire, one of the stellar attractions with Gorman Brothers Three-Ring Circus to be seen here on Tuesday, July 30, at Carnegie field on South Mill street, utilizes only a wire so fine as to be almost invisible. He walks and dances in apparent empty space until the dazed spectator wonders what sort of elfish tricks his distended eyes are playing him, and as a fitting climax he performs a triple somersault and then ascends by ascending a slender rope until he reaches the top of the mammoth tent. He halts, balances himself, and rapidly in time and balance, shoots backwards down the rope, offering a thrill that is almost impossible to describe.

Ray Goody is only one of the many features of the circus that is headed by Poodles Hanneford and his talented family of international riding fame.

## Claims Offer Of \$20,000 Was Made

Sensational Testimony Is  
Given In Hearing Of  
Fayette County  
Judge

**JUDGE PRESENTS  
NO TESTIMONY**  
(International News Service)  
HARRISBURG, July 27.—A chain of sensational allegations today was enclosed about President Judge Thomas A. Hudson of Fayette county as Attorney General Charles J. Mariotti studied testimony evoked at hearings on charges that the jurist filed excessive and irregular campaign expenditures.

Testimony was concluded late yesterday when Mariotti directed opposing counsel to file briefs with him before a decision is made on the petition of John C. Hackney, former Luzerne township tax collector, for the right to institute quo warranto proceedings against Judge Hudson in the state supreme court.

**Asks Judge's Removal**  
Hackney, now serving a two-year sentence imposed by Judge Hudson for embezzlement of \$83,000 in tax funds, asked for the removal of the judge on the basis of his 1925 and 1927 campaign expenditures.

The two-day hearing in its closing minutes took another sensational turn when R. B. Hays, Masonport, admitted the charge of the Western Pennsylvania district, that he offered Dumbauld \$20,000 not to appeal to the appellate courts in the event his petition for an audit of the 1927 expense accounts of Judge Hudson and all other Republican candidates was refused.

Meanwhile, Hackney, who had been released temporarily to testify, was returned to the Fayette county jail in the custody of the warden.

**No Evidence For Judge**  
Counsel for Judge Hudson did not present any evidence to refute the charges advanced by a long list of witnesses paraded to the stand by H. Vance Cotton, attorney for Hackney. Many of the charges also were evoked through cross-examination of friends of the jurist who were subpoenaed as witnesses.

Hays said he acted as a "go-between" for the late John R. Byrne, of Everson, a Republican organization leader, in his negotiations with Dumbauld which he insisted were held without the knowledge of Judge Hudson. The jurist was elected to the bench as the organization candidate.

**Refuses \$20,000 Offer**  
Dumbauld originally was offered \$15,000 and when it was raised to \$18,000 he said he would "think it over," according to Hays. Hays said he had another conversation with Dumbauld at which a third offer of \$20,000 was refused. At the same meeting, Hays testified, Dumbauld proposed that he had quite an acreage of Greene county coal which he might consider in a deal for \$35,000.

Mariotti immediately demanded to know if Dumbauld had intimated he would withdraw his exceptions if his coal lands were bought but the witness replied in the negative.

Men of intelligence have admitted the impossibility of understanding women. Only fools hold fast to the delusion that they have the right answer.

## Fail To Identify Suicide Mystery Girl At Sharon

(International News Service)  
SHARON, Pa., July 27—New mystery today shrouded the strange suicide of a young girl found on the Sharon-Masary road two weeks ago after the latest efforts to identify her failed.

Police at first believed the vic-

tim might be Betty Murdoch of Lima, O., but the latter appeared here in an attempt to identify her as a lost sister. Shortly after she failed to make the identification she was notified her sister had been located at Kalamazoo, Mich.

## Phillips Official Buys Large Block

BUTLER, Pa., July 27.—The largest real estate deal closed in Butler in recent years was completed late yesterday when H. Houghton Phillips, secretary of the T. W. Phillips Gas & Oil company, and his sister, Mrs. James E. Bissiker of Surrey, England, purchased the Reiber business block at Main and Jefferson streets.

Tax stamps attached to the recorded deeds indicate the price paid was approximately \$175,000.

## Why Government Cannot Be Sued

Suits Against Federal Government Can Only Be Brought Except By Permission

### ADMINISTRATION PREVENTING SUITS

Central Press  
Washington Bureau  
1900 S street  
By CHARLES P. STEWART  
Central Press Staff Writer.

WASHINGTON, July 27.—There is one thing that congress and the president can do regardless of the supreme court.

The government cannot be sued except with its own permission. That is an established principle, which the supreme court itself has recognized.

Ordinarily the government does permit itself to be sued—in the federal court of claims. If the court renders a judgment in the claimant's favor it still remains for congress to vote the money to satisfy his judgment, but there is no instance on record in which congress has failed to do so.

If, however, Uncle Sam refuses to be sued at all, the claimant is unable even to ask for his money. He can howl, indeed, but in no fashion to get his howl listened to. His only recourse, if he considers himself equal to it, is to declare physical war.

### GOLD SITUATION

This is the issue involved in the administration plan to refuse hearings, following devaluation of the dollar, to owners of United States gold bonds.

Such bonds promise repayment to their holders, not only in gold dollars, but in dollars of a specified weight and fineness of gold. The president, with congressional authorization, now proposes to repay them in dollars of approximately 41 per cent less gold content than originally was agreed.

Naturally the bondholders will sue, if they can, for collection in gold of the specified weight and quality.

At best, these suits almost hopelessly will clutter the court of claims.

It will be still worse if the court renders a multiplicity of judgments against Uncle Sam, requiring him to repay \$1.69 per \$1 of the face of his gold obligations. The supreme court already has intimated that he ought to do so, as a sequel to dollar devaluation, but also has pointed to his remedy, if he sees fit to take it—he can't be sued without his own consent.

### PROCESSING TAX SUITS

The processing tax complication also enters into the situation.

Thus far the federal government has collected close to \$1,000,000,000 from processors, for distribution to farmers, who have plowed under, refrained from planting, or have destroyed immature, unmarketable crops.

Now a federal court of appeals has ruled against the constitutionality of the processing tax. The supreme tribunal has not passed on it yet, but administrators are more than apprehensive of an affirmation of the lower court's decision. Whereupon it is a certainty that the processors will demand a return of their billion—and the billion already is gone; distributed among the producers in un-recollectable little \$100 or \$200 installments.

There is no getting it back.

Uncle Sam will have to foot the bill for his mistake, if the court of claims approves a demand by the processors for a return of their money.

### DENY PASSING IT ON

To be sure, the government contends that the processors, such as the millers, the packers and the tobacco manufacturers did not pay the processing tax—that they passed it

on, instead, to the consumers, in the form of higher prices. But the processors say they did not—that the consumers would not pay higher prices; so that the tax had to come out of the processors' pockets.

If so, one class (the processors) has been mulcted for the benefit of another class (the primary producers), which is of doubtful constitutionality.

The senate, in passing the bill widening the AAA, refused to bar lawsuits on processing levies except where processing taxes had been passed on to the consumer.

### REPUDIATION—OR NECESSITY?

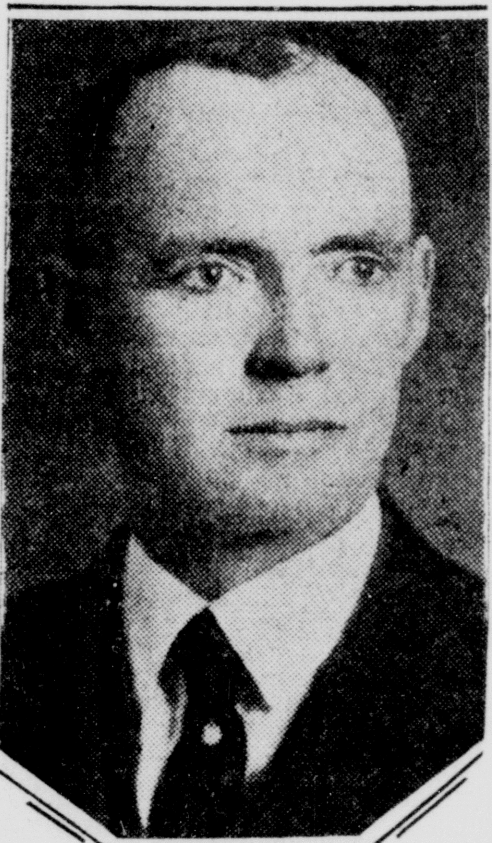

At least two formidable groups, then (the government bondholders and the processors, representing billions) threaten Uncle Sam with suits if the court of claims is open to them.

The administration's simplest plan obviously is to say that Uncle Sam refuses to be sued, regardless of the merit of the claimant's claim.

That is the purpose of the bill to close the court of claims to the demands of such litigants. The idea is simply to refuse to listen to them, anyway. Claimants call it repudiation. New Dealers say it is a practical necessity.

## Today

160 Years Ago.  
Russian Caste System?  
\$100,000 For \$16,000.  
Plump, Blonde Mr. s.  
Waley.

By ARTHUR BRISBANE

ONE HUNDRED and sixty years ago July 26, the postoffice system of the United States was established, a small thing in a very small population. The postoffice came one year ahead of the Declaration of Independence.

Today's postoffice disproves the theory that government "is not able to do anything for itself." It is able to carry a letter from Key West to Seattle, for three cents, at least seventeen cents cheaper than any private concern would carry it.

Some will tell you the postoffice doesn't pay. It is not planned to "pay," it is planned to give service. It doesn't expect to pay when it carries letters to isolated farmhouses through the rural delivery. It does better than "pay," it "serves."

True, "private initiative could not afford to serve without profit." That's exactly the reason why, when certain businesses become sufficiently great monopolies, it will be necessary and proper for the government to take them over, with just payment, of course, no confiscation.

THE SEVENTH Congress of the Communist International Meeting in Moscow will "try to unite all labor movements throughout the world," and it will have a job. Labor movements in the United States cannot unite, and some do not want to unite. Ask Mr. Green about the fur workers.

Pravda, official Russian newspaper, asks "Can Communists wait until the workers combine on a program for the overthrow of capitalism?" and answers itself:

"No—we cannot wait." Wise

Pravda! If Communists waited for complete overthrow of capitalism, they would not only be old and gray, their skeletons would be dust and Lenin's embalmed body also turned to dust, or more likely thrown out by some returning czar, as old Voltaire's ashes were scattered when the imitation French kings came back. Fortunately, scattering Voltaire's ashes did not destroy his ideas or their effect.

RUSSIA SAYS Fascism is "the worst enemy" of Communism and proposes to organize against it immediately.

Of Russia's 150,000,000 inhabitants only 3,000,000 are members of the Communist Party. How powerful "an aristocracy," or oligarchy, will those 3,000,000 become, as time passes? Will Russia develop, as India did thousands of years ago, a caste system, with untouchables at the bottom, and "Communist Party members" instead of "Brahmins" at the top?

NEW YORK politicians, after "stormy objections," agreed to give \$120,000 to Thomas E. Dewey, special prosecutor, to deal with crime in New York. The job would be cheap, if it could be done for one hundred and twenty millions. An encouraging fact is that Mr. Dewey, a young lawyer, only 33, remarkably successful in his private practice, earning at least \$100,000 a year, should abandon that practice, enter the public service and submit to abuse from friends of racketeers, for a salary of \$16,000. Glory, probably, is worth the difference.

Another extremely able prosecutor, Mr. George Z. Medalle, dropped, for years, a private income of at least \$200,000 a year to prosecute assorted public enemies, big and little, for \$10,000 a year.

OFTEN WOMEN change. Mrs. Margaret Waley, on her way to spend twenty years in a Michigan prison for the kidnapping of young George Weyerhaeuser, no longer wishes "to be with my husband (sniff, sniff), wherever he is." In fact, says she, "He didn't get a third of what he deserves." He "got" 45 years.

Mrs. Waley says she is not only through with her one kidnaper husband, but through with all men forever. "Forever" is long, and Mrs. Waley is plump and young and blonde, and there are always the parole boards. "All men" need not despair.

IN AUSTRIA, Austrian Nazis are taken "into protective custody," to prevent demonstrations on the anniversary of the death of Chancellor Dollfuss. The Nazis, not discouraged, distribute hand bills announcing "trouble" for July 30 and 31.

The "trouble" is planned to celebrate the anniversary of the hanging of thirteen Nazis last year in connection with Dollfuss' death.

THROUGHOUT AUSTRIA gangs boomed and new feature, all over Austria Dollfuss' last speech was broadcast, borrowed from a phonograph record. It would be interesting to hear George Washington's actual voice telling the nation to keep out of European entanglements. Lincoln, told that General Grant drank too much whisky, and saying he wished he could get some of the same whisky, and feed it to other generals.

Mussolini sent a wreath to Dollfuss' tomb. Rulers must stand together.

JEREMIAH G. MAHONEY, national president of the United States Amateur Athletic Union, a Catholic, and naturally not pleased with government treatment of Catholics in Germany, suggests the United States and its athletes withdraw from the 1936 Olympics Games, scheduled for Berlin next year.

To carry out that suggestion, frequently made, would be a mild but effective way of expressing the American conviction that religious and race discriminations are not approved by a people that came to this country expressly to get away from such discriminations.

## AROUND CITY HALL

Police chronology for 24 hours ending at 3:30 p. m. July 26, six arrests on charges as follows: Drunkenness 4, speeding 1 and violating traffic rule, 1.

Council has requested the WPA to approve projects in the city which will cost about \$290,000, and it is hoped that the projects receive favorable action. They must be approved at Harrisburg and Washington before work can get under way.

Among the projects are eight streets which the city wants paved. Petitions for the paving of approximately 2 score thoroughfares are on file at city hall. The city does not wish to undertake more projects until the city engineer, should approval be given and the eight streets paved, request will be made for the paving of other streets. Benefits will be assessed against abutting property owners on the streets paved with the same material as was used on Sampson street, Cedar street and other lanes.

Due to the desire to the city streets department to dig beneath the light standard at East Washington and Mercer streets ropes and wires have been wrapped around them and fastened to telephone cables.

bles. Electric company attaches were afraid the excavation would cause the light standard to fall. The excavation is intended as part of the program to eliminate a water nuisance in Mercer street immediately south of East Washington St. The catch-basin at the intersection will be made larger.

Dr. W. L. Steen, city health officer has presented his report of health conditions here during June month. It shows 105 cases of contagion of which 91 were measles. The other diseases were: scarlet fever 7; diphtheria 2, chickenpox 2 and whooping cough 2.

Nine wells and springs were condemned and closed by the city health officer last month. Dr. W. L. Steen reported to city council. He made 45 examinations of drinking water, 24 having been from water from the New Castle Water Company and 21 from wells and springs. He made 12 tests of water in bathing pools and found the water satisfactory. Thirty samples of milk was tested and according to the report no milk was condemned. Nine inspections were made at pasteurizing plants and 15 at raw milk dairies.

Eight hundred and thirty two tons of garbage were collected and burned last month according to the report of Howard Phillips, superintendent. In addition more than 200 loads were disposed of by non-city trucks.

One hundred and five homes were placed in quarantine owing to contagion according to Chauncey Davis, sanitary policeman. He also made 35 inspections to see that sanitary rules were being obeyed and investigated 15 alleged nuisances. In addition he inspected meat and fish markets, hotels, and restaurants and confectionery stores, according to his report to Dr. W. L. Steen.

## Detroit Tigers Coming Through

Now Lead American League  
By Game And Half Over  
Slipping Yanks

## INDIANS LOSE TO DETROIT

By PAT ROBINSON  
International News Service Sports Writer

NEW YORK, July 27.—Mickey Cochrane is a determined young man and no mean shakes as a prophet.

From the beginning of the season, when his Tigers were floundering around like a lot of cats in a tub of water, Mickey continued to insist he would land his team in first place by August and stay there.

And today we find the Tigers on top of the heap a few days ahead of schedule. With the first part of his prediction fulfilled so accurately, one hesitates to doubt the rest of it.

### Tigers At Home

The Tigers have a long home stand ahead while the Yanks are traveling and it may take more dynamite than the Yankees pack along to blast them out of there.

Mickey gave the Indians a load of Anker yesterday and, although touched up for ten hits, the young man had little trouble winning, 8-2, when his mates bunched a dozen hits on Lee and Pearson to good advantage.

### Yanks Lose

Meanwhile the Yanks were being knocked off by the lowly Senators, 9 to 3. Strangely enough, it was Heinie Manush, whom the Yanks hesitated to buy when they had the chance, who spilled the beans for them.

Ed Linke, the Senators' young right-hander, was struck on the head by a line drive from the bat of Jess Hilla in the second inning and was taken to a hospital where it was said he has a slight concussion of the brain.

The accident produced one of the strangest double plays on record. The ball bounced off Linke's head high in the air in a foul territory where it was caught by Catcher Jack Redmont, whose throw to first doubled Chapman off the bag.

### Freak Play

Linke, therefore, got an assist and took part in a double play while lying unconscious on the ground. There's no for Ripley.

Everybody but the Reds and Cubs were idle in the National League. The Cubs picked up half a game on both the Giants and Cards by knocking off the Reds, 5 to 1, with Larry French outpitching Paul Derringer.

The Cubs are now only 2½ games back of the Giants and going like a prairie fire fanned by a high wind.

## Schmeling-Louis Bout In Doubt

Schmeling Wants To Fight  
In United States But  
Doesn't Like Such  
High Taxes

By DAVIS J. WALSH  
International News Service Sports Editor

NEW YORK, July 27.—With Madison Square Garden on one end and Max Schmeling on the other, there ensued yesterday morning a transatlantic telephone conversation which, to every practical purpose, seemed to indicate that Schmeling has very serious intentions of turning up elsewhere for all these prize fights his American agent is so generously arranging in his behalf. Briefly, the former heavyweight champion is declared by the Garagens to have asked a guarantee of \$150,000 with all personal taxes paid by the promoter, for a Max Baer fight in September.

What he would wish a Joe Louis fight in September is probably something beyond that which is coyly known as the dreams of avarice. So far as is known, he hasn't yet declared his desires along that line. Perhaps he's still waiting to get an estimate from the minister of finance.

### Schmeling Is Smart

Anyhow, the negotiations make the young man appear as one who either is prejudiced against fighting in America or is just not quite bright, with the accent strictly on the former. The pay-the-taxes idea with which he supplied Madison Square Garden is the real answer.

It means that, if Max Schmeling fights here without first arranging all financial details through some established and altogether reliable agent, he will wind up behind the wash basin. Yesterday we were all out of idiots for the time being, so negotiations were temporarily at a standstill.

## Allison Wins Tennis Match

Play

By F. A. WRAY  
International News Service Sports Writer

WIMBLEDON, Eng., July 27.—Wilmer Allison, America's man of the hour in the recent final round, today sent the homeland off to a rousing start as assuming a one-set lead over Bunny Austin, gallant Englishman, in the opening singles of the Davis Cup challenge round. At the end of three sets, Allison had a two to one lead, gained after Austin had taken the first set at 6-2.

That augured well for England's chances of retaining the famous trophy but Allison promptly rallied as only the remarkable Texan can to win the next two sets, 6-2, 6-4.

George Trainor, who completed his qualifying round yesterday, was one under par on his second round of the course, shooting a 72 after a 78 earlier in the week, for 150.

Golfers who desire to compete for the city title still have today and tomorrow to get in, and it is expected that quite a number, who have played their first 18-hole round, will finish up by Sunday evening.

The best scores which have been turned in by the early qualifiers are as follows:

## Betty Bridenbaugh And Sally Norris In Golf Finals

Miss Betty Bridenbaugh and Miss "Sally" Norris will battle it out for the girls' championship in the July handicap event at the New Castle Field club course, it was announced by Angelo "Duke" Monney, pro at the Field club, today. Miss Bridenbaugh, daughter of Coach Phil Bridenbaugh, defeated Miss Frances Eiden 2 and 1 to enter the finals.

Miss "Sally" Norris defeated Edwina Connery 1 up in 20 holes to enter the finals.

FOUR QUEENS—Stars of the deep smile for you. Left to right, Katherine Rawls, Mary Hoerger, Lenore Kight and Elizabeth Kompa.

## HERE AND THERE IN SPORTS' LAND

Herb Miller paraded into the semi finals yesterday at Washington to move a step closer to the Washington-weene county golf title. He defeated H. C. Tol, Clinton, 4 and 3 and A. R. Robinson, Donora, 3 and 2. He is tied with C. E. Dittman, J. L. Daily and Camille Ross. Ross beat J. S. Skelly and then repeated over Billy Goldberg. Dittman will play Ross and Daily will oppose Miller today.

Aliquippa Grays who play the Tin Platers Sunday at Centennial field have become quite popular here for their clean and bang-up playing. They bowed for the first time this season to the Tin Platers but came back with wins over Bessemer and Mahoning. Years ago the Homestead Grays were the magnet of local fans. It looks as though the Grays are snatching off some of the Homestead team's popularity.

The Sixth Ward Firemen bowed to the Grove City Collegiates, 4 to 0, on Lee avenue field yesterday. It was the second defeat in 17 games. According to Hugh Horton, fireman, the team is composed of all West Siders, except one, Thornton, and he was born in the Sixth ward. They are young players whose sole purpose is to keep the West Side high in baseball circles.

Ryantown is a team that does not believe in letting grass grow beneath their feet. They like to play every day possible.

## VET DISPATCHER LEAVES PENNSY

William Marso, With Service Lasting 51 Years, Retires On Pension

Railroading for William Marso, veteran train dispatcher for the Pennsylvania here, with a service record of more than 51 years, came to a formal end today when he received his official "roll of honor" certificate from Superintendent Norman M. Lawrence at E. & A. division offices here.

Marso's certificate was the first retirement certificate for an E. & A. man to carry the signature of President M. W. Clement.

His health improving, Mr. Marso, pensioned officially on June 1 of this year, will spend most of his time at his home at 202 North Shenango street enjoying the rest which he has earned.

On September 1, 1933, he received his 50-year service button from division officials. So his service record, extending until last June 1, shows that he had more than 51 years of service in his long railroad career.

Some time ago Marso underwent a serious operation at Buffalo, but he is rapidly regaining his normal strength.

The rail dispatcher is well known here and over E. & A. territory.

Week-End Market Finds  
Bullish Influence In  
Stocks, Many New  
Highs

By LESLIE GOULD  
International News Service Financial  
Writer  
NEW YORK, July 27.—The stock  
market closed the week on a bullish  
note today after a slow start.  
Gains ran from 1 to 2 points and  
many issues hit new high including  
Chrysler, Westinghouse and virtu-  
ally all the farm stocks.

Some influence was exerted by  
strength in grains, where gains ran  
to 5 cents a bushel. Silver also rose  
for the first time in weeks. Bonds  
were higher and the dollar quiet.  
Earl strength was shown by utilities  
which continued their rise of the  
last two days but these were  
overshadowed later by the industrial  
list. Motors were strong under the  
leadership of Chrysler. The farm  
list ran up easily, and steels firmed  
after early sluggishness.  
Union Pacific improved in the  
rails but the carrier division in the  
main was quiet. Electrical equipment  
was in large demand. Oils  
were under pressure.

day at 2:30 p. m. at the home of  
Mrs. J. R. Conn, of 9 North Green-  
wood avenue. The meeting was  
called to order by the president, Mrs.  
R. E. Long. Devotionals were con-  
ducted by Mrs. T. O. Allen.  
Miss Alice Godwin read an article  
on "The American Home" in which  
it was stated that smoking and  
drinking are not conducive to the  
building of better American Woman-  
hood and that "Old Dog Liquor" is  
a menace to humanity.  
Mrs. Long read a card from the  
Margaret L. Henry Home thanking  
the union for the flowers given on  
Flower Day and which were much  
appreciated. The movies were dis-  
cussed and censured as a menace.  
Delegates were appointed to the  
county convention which is to be  
conducted August 22 in the Sec-  
ond U. P. church. They are: Mrs. R.

officers with the following results:

lyn Bloomer; temperance and mis-  
sions, Miss Alice Godwin; and citi-  
zenship, Mrs. Ella Rote.  
The meeting was closed with the  
Lord's prayer.

Motives are not always revealed  
in remote historical records. Esau  
may have sold his birthright for a  
mess of pottage rather than go on  
relief.

Round Says Power Commis-  
sion Report Does Not In-  
clude Recent Re-  
duction

RATE IN CITY IS  
SHOWN TO BE LOW

The Federal Power commission's  
report on electric rates, reported by  
Arthur C. Wimer, special Wash-  
ington correspondent for the New Cas-  
tle News, in yesterday's News was  
based on rates in effect January 1,  
1935, and does not take into consid-  
eration the recent rate reduction fil-  
ed by the local company, according  
to L. B. Round, vice president and  
general manager of the company.  
He says:

The Federal Power commission's  
report covered all cities in the United  
States and the state report just  
released as part of this work showed  
New Castle to compare very favor-  
ably with other cities in the state.  
"The rate reduction filed effective  
April 15, this year, embodying the  
objective rate plan resulted in a ma-  
terial further reduction in the local  
rates. The immediate rate provides  
an immediate reduction from the  
rates stated in the Power Commis-  
sion's report, while the Objective  
rate, which is applicable to custom-  
ers increasing their use over the  
previous year, is still lower and ac-  
cording to the latest available re-  
cords is the lowest residential rate in  
the state for any city either above  
or below 25,000 population, whether  
served by a municipal plant or a  
privately owned company.

"For 25 KWH the New Castle cost  
as reported in the Commission's re-  
port was \$1.43, under the recently  
filed immediate rate this cost is  
\$1.38 and under Objective rate, \$1.25.  
For 100 KWH the cost as reported  
was \$4.80 whereas the immediate  
rate cost is \$4.55 and Objective rate  
cost is \$3.83. At 250 KWH the cost as  
reported was \$8.00, this has been re-  
duced to \$7.75 under the immediate  
rate and \$7.08 under the Objective  
rate.

"In all of these groups the Ob-  
jective rate cost is, according to pres-  
ent data, as low or lower than any  
other city or town in the state re-  
gardless of population.

Confesses That  
Hold-up Was Fake

Washington, Pa., Bank Mess-  
enger Changes His Story  
Of Robbery

(International News Service)  
WASHINGTON, Pa., July 27.—  
Samuel Brooks, 74, veteran negro  
messenger for the Citizen's National  
bank, who claimed he was held up  
and robbed of \$1,034, in cash and a  
\$10 check on Thursday afternoon  
changed his story today.

Brooks, county detectives said, ad-  
mitted he turned the money over to  
two colored "confidence men" who  
had a scheme for getting rich  
quick. Previously, he insisted he  
was held up and while one of the  
men struggled with him the other  
snatched a registered mail bag con-  
taining the money from his grasp.

Detectives said Brooks told them  
the "confidence men" approached  
him with their "get-rich-quick"  
scheme, and he agreed to aid them.  
Complying with their instructions,  
Brooks allegedly confessed leaving  
the post office Thursday afternoon  
with the money and walking down a  
specified street. As Brooks passed  
them the "confidence men" staged  
the fake holdup and dashed away on  
foot, police said.

The men, authorities believe, joined  
another Negro and a Negro who  
waited nearby in an automobile  
bearing Maryland license plates.  
Brooks told police he did not know  
the names of the "confidence men".

BOSTON, July 27.—A state-wide

dence will be presented against the  
violators next week to a federal

The investigation, ordered from

terior Harold L. Ickes, was expected

## Four Lawrence County Projects Given Approval

President Makes Funds Available For \$42,303.60 Work Projects

### TOWNSHIPS WILL GET IMPROVEMENTS

By ARTHUR C. WIMER, Special Washington Correspondent, New Castle News.

WASHINGTON, D. C., July 27.—President Roosevelt today made available Federal work-relief money for four works projects in Lawrence county costing \$42,303.60, one of these being the proposed pipe line to supply New Castle sewage disposal plant with city water.

The President approved Federal money totaling \$37,178.10 for the projects. The balance of \$5,125.50 will be contributed by local governments. Construction will be under the supervision of Pennsylvania Works Progress Administrator Jones and J. Vale Downie, works supervisor of the Lawrence, Butler, Beaver, Mercer counties district.

### Local Projects

Federal funds of \$2,199.50 have been assigned the New Castle pipe line undertaking. The estimate cost of this is placed at \$2873, with \$673.50 to come from local officials.

The three other Lawrence county projects for which money was made available by the President are listed as follows:

North Beaver Township—Widen and surface road. Federal funds, \$7,920.20; sponsor's contribution, \$2,675.80.

Shenango Township—Grade and surface road. Federal funds, \$15,426.90; sponsor's contribution, \$900.30.

Taylor Township—Construct sidewalk and street. Federal funds, \$11,631.50; sponsor's contribution, \$875.80.

### In Beaver County

President Roosevelt approved allotments for \$93,105.30 worth of projects in Beaver county. Federal apportionments to these total \$63,890.25, with the balance of \$29,215.05 coming from the local governments sponsoring these. The Beaver county projects are listed as follows:

Potter Township—Repair county home. Federal funds, \$8,152.75; sponsor's contribution, \$2,424.50.

Aliquippa—Building toilet rooms. Aliquippa Public Schools, Federal funds, \$1,485.75; sponsor's contribution, \$1,100.32; painting inside walls at Washington school. Federal funds, \$2,375.75; sponsor's contribution, \$977.40; remove parapet wall and rebuild another at Logstown building. Federal funds, \$1,998.25; sponsor's contribution, \$773; construct fence and bleachers at Aliquippa High School. Federal funds, \$18,112; sponsor's contribution, \$10,366.78; building open stone drain. Federal funds, \$15,136.75; sponsor's contribution, \$2,120.

Beaver Borough—Improve Wilson avenue and river road. Federal funds, \$6,092.25; sponsor's contribution, \$950.65.

Monaca Borough—Grade road and build storm water drain. Federal funds, \$10,536.75; sponsor's contribution, \$1,945.

No funds for Mercer or Butler county projects were approved by the President. These are expected to come later. In all, the President allocated \$256,885 to non-Federal projects throughout the Keystone state.

The rapidity with which the projects in Lawrence and Beaver counties are gotten under way will depend upon State Administrator Jones and the local supervisor, Mr. Downie.

### Protest W. P. A. Steel Purchase Contract Basis

(International News Service)

WASHINGTON, July 27.—The American Iron and Steel Institute protested to the PWA today against regulations on the purchase of steel for public works projects which Eugene Grace, head of the institute, charged discriminated in favor of foreign steel.

At a conference with Col. Horatio B. Hackett, deputy PWA administrator, and PWA attorneys, Walter Tower, secretary of the Institute, declared German steel producers can ship construction steel to this country, paying all freight and import charges, cheaper than it can be produced here even with a 15 percent preference for domestic products allowed by the PWA.

### On Court House Hill

There are 41 male inmates of the county jail at present, and no women, according to Sheriff Edward D. Pritchard. It is seldom that the jail is without at least one female occupant.

There has been a decrease in both the assessed value of real estate in Lawrence county during the past three years, and in the tax millage. In 1932 the valuation was \$70,116,430, and the rate 10 mills; in 1933 the valuation is \$65,194,202, and the rate 8½ mills.

The Boyles property adjoining the court house is badly in need of a manicure. Since the death of Mr. and Mrs. Boyles there has been nothing done in the way of cutting grass and weeds, with result that the unsightly appearance detracts from the beauty of court house hill.

Among the work projects that should be done if anybody ever gets back to work again, is some repairs to the belfry of the court house. It is needing a little carpenter work and painting. And it wouldn't hurt the court house clock to have its face washed once a year.

With a host of candidates in the field, electors are having a hard time remembering whose nomination papers they have signed. Under the law no elector shall sign the petitions of more candidates for the same office than he can vote for at the primary election. Signing a candidate's nomination paper does not obligate an elector to vote for the candidate at the primary.

Away back in 1794 the legislators of Pennsylvania passed a law providing fines or jail sentences for persons found guilty of using profanity. Trials and convictions under this ancient law are rare, but the law is still on the books, and a few days ago a woman in Treverton, Pa., was sent to jail for 12 hours after pleading guilty to a violation of the law. The interesting thing about this case is that the charge was brought by the woman's own daughter. That the state keeps the law on the books is odd, but odder still is the fact that there is in existence a woman whose conception of her duty is so twisted that she would have the law applied against her own mother.

With 220 offices to be filled in Lawrence county this year, and an army of candidates for the jobs, it looks as though Mr. and Mrs. Voter will have plenty of material from which to select. The more important officials to be elected will have a hand levying taxes, collecting the money and expending the same. This being the case, it is incumbent on voters to exercise the greatest care in the selection of persons who are to represent them in local government.

It is not enough for a candidate to tell you that he is in favor of lowering taxes. He should have some definite idea of how he is going to do it. Taxes cannot be lowered without a plan for cutting expenses. Just how, and where is he going to cut? Most candidates will tell you that he would cut down the personnel of an office, without any very definite idea of how many people are actually required to do the work of that office. How many candidates who have been elected to office, from the President of

the United States on down the line to local governments, have you ever known to cut their forces? This is not saying that it cannot be done, but how often is it done? The whole tendency of government is to increase jobs, so that friends and relatives may get on the public payroll. There is no question but that the expenses of government can be drastically reduced. The problem is to elect men whose interest in the public welfare is greater than their own selfish interests. Are there any such candidates? If so it is the duty of voters to select them. The "best man", to whom some refer, is not always the "good fellow", but the candidate with a plan of economy and efficiency.

Candidates might bolster their campaigns by making a study of the office to which they aspire, and by informing the public just what they intend to do once they are in office. If ever there was a time for the employment of economy without becoming penurious, it is now, when thousands of good citizens are unable to see over a mountain of unpaid taxes.

**CITY AFTER 1936 LIBRARY MEETING**

Invitation Will Be Read Before '35 Convention At Wernersville

New Castle will invite the Pennsylvania Library Association to hold its 1936 convention here, Miss Alice M. Sterling, city librarian, announced today.

Responding to an invitation which Miss Sterling sent her upon the authorization of the library's board of trustees, Miss Mary Elizabeth Crocker, Lock Haven, the association's president, wrote today:

"Thank you for your letter of this morning. It sounds as if New Castle would be a most delightful place for the 1936 meeting, and it will give me much pleasure to read your invitation to the association at the meeting at Wernersville, Pa., from October 3 to 5. It is time we met in your part of the state, also, and so this seems as if the invitation would be very welcome."

Secretary Alfred W. Chilton of the Chamber of Commerce, in a separate letter, welcomed the convention for 1936.

Miss Crocker is librarian at the Annie Helenbake Ross library at Lock Haven. It is understood the librarians' convention is "one large enough the city would feel proud to have assembled here."

**Kauffman Enters Commissioner Race**

New Wilmington Man Is Candidate For County Nomination

BEN F. KAUFFMAN

Ben F. Kauffman has announced as a candidate for the Republican nomination as County Commissioner. His friends submit the following as showing his qualifications:

Of Amish descent, he was born and raised in Lawrence county. With 30 years of business experience he has become a large taxpayer. He worked in the Greer Tin Mill and also in the Shenango Tin Mill; and he resided in New Castle.

For three years he conducted a general store at Mr. Air in Little Beaver Township. For the last 14 years he has been in the grocery business in New Wilmington. He is a member of the Borough Council and Chairman of the Park Commission. He has acted in all Borough affairs and has just returned from State College where he was a delegate to the State Sewerage and Drainage Convention.

Ben F. Kauffman assures every voter he has no wild, visionary schemes or plans, but will exercise common sense if elected, and will conduct public business with the same judgment he has used in his private affairs. He asks you to vote and work for him. He entered this fight of his own volition. He represents no individual or faction and is in to win.

NEW WILMINGTON, July 27.—New Wilmington citizenry will sleep peacefully when the purchase and installation of a new vibrating horn for the summons of the night watchman is installed.

Always the first to adopt anything new for the benefit of its citizens, borough officials at the College town have ordered the purchase of a new vibrating horn to summon the local police in case of necessity.

Anxious to avoid any disturbance, the officials have decided that a horn that will not disturb anyone's slumber shall be purchased.

**More "Pioneers" To Quit Alaska**

Forty Five More To Return To Dole In United States On Next Boat

PALMER, Alaska, July 27.—Eleven more families—45 persons in all—prepared today to desert the Lush Matanuska Valley colony and return to their homes in Minnesota, Michigan and Wisconsin.

Illness, dissatisfaction and alleged misrepresentation of conditions at the Federal farm colony caused the "new pioneers" to pull stakes to await the next sailing of the North Star for the States. They were to leave Palmer today.

Their departure from the Matanuska will bring total desertions to about 90 persons, including children. Seven other families left the colony recently to try to make a living on farms or in mines of Seward, Anchorage and Juneau. Seven families returned to the Midwest several days ago.

Relief rolls, from which they were recruited last April, or hoped-for jobs under the Administration's work-relief program, appeared the likely outlook for the families. About 1200 Midwesterners were in the original groups that came to the huge colony in April.

**Sixth Ward Has No Alderman**

But Vacancy Is Expected To Be Filled At Coming Election

One office to be filled this year at the general election in November is one that has been vacant for several years, that of alderman of the sixth ward. Since the death of T. Bert Iman, who was the last alderman elected for the sixth ward, the office has been vacant, no attempt being made to fill it.

For a number of years the office of alderman in the sixth ward has not been as busy as some of the other offices. This fact is responsible for the place not being filled since the death of Albert Iman.

Several candidates are mentioned as being likely to run for the post, but because of the location of the ward and the fact that the business through this office is not heavy, it is hardly probable that the fight will be an intensive one.

**Gross Abuses Of Relief Plan Shown**

YOUNGSTOWN, O., July 27.—A dozen investigators told the joint legislative investigating committee today that "thousands" of unauthorized persons have been on the Mahoning county relief rolls.

They charged, too, that "relief administration employees have been gambling and drinking and that the relief system was 'lax and extravagant.'"

Miss Caroline Driscoll, principal witness to criticize the relief administration, and herself a former relief employee, said that at one time 6,000 unauthorized persons were on the rolls and charged that FERA jobs were given to 2,000 persons who were not eligible.

Just a few of the questions we hear every day.

For weeks, we've been busy with plans and blue prints with only one idea in mind—a better store and a more attractive shopping center for the people of New Castle.
